Swami Awadheshanand Public School,
Kamptee

2017 - 2018

87%

PROJECTS

FarmRentals - Agriculture and Rural Development
(SIH 2022 - Problem Statement) (01/2023 - 04/2023)

- It is an innovative web platform designed to help farmers generate additional income by renting their equipment to other farmers.
- Developed a user-friendly platform to simplify the rental process aimed to promote efficient use of farming equipment, reducing costs for farmers.
- Utilized HTML, CSS, and JavaScript to create an intuitive user interface with Bootstrap components and employed PHP, MySQL for Backend management.
- Project : <https://www.farmrentals.live/>
- Blog : <https://farmrentals.wordpress.com/2023/05/10/farmrentals/>

StoryCircle (10/2023)

- It stands as a captivating web application designed to facilitate collaborative storytelling among its users.
- Aimed to stimulate creativity and teamwork by enabling multiple participants to contribute narratives and choose story genres.
- Integrated GPT-3.5 Turbo for advanced text generation, utilized React and Python with Flask for Frontend and Backend development.

WORK EXPERIENCE

Martian Internship Persistent Systems

06/2023 - 08/2023

During the 7-week internship, I learned Linux commands and improved my DBMS skills, especially in database design and SQL. Enhanced Python Knowledge, working with DSA and libraries.

Content Writing Internship Beyond Exams

04/2022 - 05/2022

During this content writing internship, I thrived in a collaborative setting, refining the skills in crafting impactful educational content and strengthen the art of content creation.

SKILLS

C++

Data Structures

Algorithms

Python

HTML

CSS

JavaScript

Problem Solving

SQL

React JS

Bootstrap

MySQL

ACHIEVEMENTS

1st Runner up of Hack it Out'23 (Hackathon)

~ by Indian Institute of Technology, Patna (IITP)

1st Runner up of GPT Solve-a-thon (2/53 teams)

~ by Indian Institute of Information Technology, Nagpur (IIITN)

Reached Level 4 in Slay X Coding Ninjas contest

~ by Coding Ninjas - Slayground

Rank < 1080 in GFG coding contest (Dec 2023)

~ by GeeksforGeeks Weekly Coding Contests

Solved 400+ Questions across various platforms

~ GeeksforGeeks, LeetCode, CodeStudio, CodeChef, etc

CERTIFICATES

Problem Solving (Intermediate) - HackerRank (03/2022)

Covers topics of Data Structures and Algorithms. [view](#)

Python Certification - HackerRank (01/2023)

Covers topics like Scalar Types, Operators, Control Flow, etc. [view](#)

JavaScript Certification - HackerRank (10/2023)

Covers topics of Functions, Hoisting, Inheritance, Events, etc. [view](#)

Web Development Bootcamp - Udemy (10/2023)

Complete 63 hrs course by Dr. Angela Yu. [view](#)
